### FSB® HARDWARE

FSB hardware available in a black anodized aluminum or satin stainless steel finish.

\*\*Hardware is sold separately.  
†FSB style 1102 is not available in black anodized aluminum.

Tribeca and Albany hardware are zinc die cast with powder-coat durable finish. Yuma, Encino, Newbury and Anvers are solid forged brass. FSB is stainless steel or aluminum. Distressed bronze and oil rubbed bronze are "living" finishes that will change with time and use. Bright brass and satin nickel finishes on patio door hardware feature a 10-year limited warranty. Matching hinges available in most finishes for inswing patio doors, excludes FSB. Printing limitations prevent exact replication of colors and finishes. See your Andersen supplier for actual color and finish samples.
